

Our 2028 general-strike demand

Strategy Notes 258 and 259 listed some possible demands for our multi-union strike on 1 May 2028, asked what you think we should demand, and asked what co-workers say when you ask them.

At the 19-20 September 2024 convention of the North Carolina State AFL-CIO, I used big pieces of paper and markers to collect demand ideas. Attendees listed (with minor spelling corrections):

- universal health care
- childcare
- rent control
- pass the PRO Act
- remove ceiling Social Security = total funding
- job security
- better working condition
- make the USPS fully governmental
- COLA increases
- better maternity leave/support
- training and education programs
- corporations don't have human rights, only people do
- work 20hrs for 40hrs pay
- month off yearly for all
- fully fund public schools
- housing for all make affordable
- access to the union
- paid sick time
- do away with private prisons
- free insurance for everyone (mental)
- no more "right to work" states in the U.S.
- Supreme Court term limits
- don't terminate probationary employees at the end of probation like 24 hours to less than 30 days
- term limits on Congress
- tariffs to counter unfair trade
- free schooling
